NO GRUMBLERS IN NEW-ENGLAND. ALL CLASSES PLEASED WITH THE CHANGE IN

Washington, Sept. 4.—Colonel Brigham, Assistant Secretary of Agriculture, has returned from a trip to New-England. He reports that the people of the section generally express themselves as pleased with the change that has taken place in industrial conditions. While the farmers are especially deconditions. While the farmers are especially de-lighted on account of the enhanced value of their products, there is no disposition on the part of others to grumble because they have to pay more to the farmers, as they realize that their markets will improve as the condition of the agricultural in-terests changes for the better. Colonel Brigham still holds to the opinion that the aggregate value of the entire crop of the coun-try will be almost if not quite \$56,000,000 in excess of that of last year, and says that such a turn in the affairs of the farming community must of neces-sity produce improved conditions throughout the country.

### THE CITY'S HISTORIC RELICS.

THEY MAY HAVE TO BE MOVED TO MAKE ROOM FOR GREATER NEW-YORK DEPARTMENTS.

In the changes that are being proposed by the architect of the Department of Public Works in the interior of the City Hall, is one to cut off the eastern portion of the old Governors' room to make place for the Aldermen's Chamber of the new Municipal

The Governors' room, or rooms, have for years been regarded as sacred precincts. Up to the time of Mayor Opdyke the doors were kept locked, and the stately chambers were opened only or mayor Opdyke opened it to the public, and an attendant has been kept constantly on duty since.

The Governors' room takes up the centre portion

of the hall facing Park Row, on the second floor. The wide doors leading to it open directly on the corridor at the head of the quaint curving stair-ways that circle around the rotunda of the building. There are in reality three rooms, two adjoin-ing the main room on either side, and connecting with it through wide arches.

In these rooms are many objects of historic interest dear to the hearts of all New-Yorkers. The chairs and some tables from the chambers of the first Federal Congress are there, and tables and

chairs and some tables from the chambers of the first Federal Congress are there, and tables and desks from Washington's and Jefferson's offices in the old Wall-st. Federal Building.

In the room which Mr. Duncan, the architect, suggests should be cut off for the Aldermen's Chamber is Jefferson's magnificent cherry desk. The "Corporation Punch Bowl," from which many dignitaries of the Nation were served at the celebration in honor of the opening of the State canals as built by Governor Clinton, on July 4, 1812, rests on a cherry table in the centre of the room. It is two feet across at the brim, and in addition to decorations representing views of New-York from the harbor in 1812, and in old Dutch days and pictures of the Federal warships, in which the old pine tree" flags are shown, and the arms of the State and Nation, are the inscriptions:

"Drink deep, you will preserve the city and encourage canals."

"Presented by General Jacob Martin to the Corporation of the City of New-York, July 4, 1812."

Besides these interesting objects there are old Mexican battle flags, Harry Howard's firs helmet and portraits of President Van Buren, Governors Clarke, Yates, Clinton, Throop and Dix, Mayors Woodhull and Lee, Chancellor Kent and Alexander Hamilton, and a bust of Henry Clay.

DR. GOTTHEIL ON THE ZION PLAN. The Rev. Dr. Gotthell preached yesterday in the Temple Emanu-El for the first time since returning from his vacation at Mount MacGregor. His subject was, "Shall Religion Have Its Share in the Good Times Coming?" The preacher referred casually to the proposed movement among wealthy Hebrews to buy Palestine for the Jews. "It is an idea," he said, "of such vastness that it is but natural that much can be said for and against it. Still, it adds greatly to that sense of dignity and independence which pervades at this moment the Jewish heart." Temple Emanu-El for the first time since return-

Petersen, a seaman on the who has brought suit to recover \$1,000 from the captain for injuries alleged to have been received The captain was released on furnishing \$1,250 bail.

Petersen alleges that early in January he sailed as a seaman on the Elwell, bound for Port Natal, South Africa. Scarcely was land out of sight, he says, when the captain began to abuse his men, venting his wrath particularly upon Petersen. venting his wrath particularly upon Petersen. When eighteen days out, Petersen says that the captain, without any provocation, felled him to the deck with a pair of brass knuckles, incerating his head and face and breaking his nose.

"Then the captain threw me down a flight of stairs into the cabin," says Petersen in his complaint, "where, with the help of the first mate, he forced a pair of handcuffs on my wrists and suspended me in the air by a rope tied to the handcuffs and thrown over an iron bar." While thus suspended, Captain Goodman, Petersen alleges, made a dog attack him, and he was severely bitten on the legs.

After tiring of submitting him to this barbarous on the legs.

### ALL DUE TO THE WATERMELON.

STORY OF A NEGRO WHO CARRIED ONE DOWN SIXTH-AVE. AND THE RESULTS.

Shoppers in Sixth-ave, were the witnesses yesterday afternoon of an exciting and dramatic ocirg an enormous watermelon. The melon was no an ordinary one. It was nearly as large as its bearer, and its beautiful mottled green surface looked as though it had been carefully polished until it was as bright as a mirror. Perhaps it was until it was as bright as a mirror. Perhaps it was intended for the prize competition at Madison Square Garden this week. At any rate, its bearer wore an expression of conscious pride, and he guarded the melon with as much care as if it had been made of excistell porcelain. But the fates are stronger than the precautions of man. A pair of early revellers chanced to make their unsteady exit from a saloon at the precise moment that the colored gentleman and his preclous burden were passing. As Kiping says, "It all passed swiftly as a dream." The meion had rolled into the roadway, in the direct line of a rapidly approaching two-horse wagon, and the nearo stood on the sidewalk, agonized and helpless despair written on his face. He was too much overcome even to vilify those who had caused the catastrophe, but stared at the meion and the approaching juggernaut as if hypnotized.

In a few seconds the meion was out of sight, and

melon and the approaching juggernaut as if hypnotized.

In a few seconds the melon was out of signt, and
its owner, not daring to cast a glance at its
mangled remains, turned sorrowfully away. He
was recalled by a voice from the roadway.

"Hi! Is this your melon?" it shouted.

The negro turned, and saw his property in the
middle of the street, apparently unharmed. He
had swooped down upon it in the twinkling of an
eye, and after a brief examination gave a delighted
yell. The melon had escaped with a shaking and
a splash or two of mud. The negro hurried down
a side street, evidently thinking that Sixth-ave,
was too crowded a thoroughfare in which to carry
articles of value.
